

Jurisdictions

The Three General Jurisdictions, plus one...

This entire bureaucracy and all the land claims established under it began in 1302. It divided the Earth into two spheres (Hemispheres) and three international jurisdictions: Land, Air, and Water (LAW) overseen by Kings, Emperors, and Monarchs. Man's law.

The world operates across these three broad jurisdictions, each with its distinct rules, instruments, and scope of influence. It is possible that when originally invented their purpose was honourable, but I'm sure anyone reading this knows they have all been subverted to the purpose of enslaving man and enriching the ruling class.

Soil

Soil is the jurisdiction of life - where men and women do business and interact with men and women - where "my word is my bond" actually means something and agreements are sealed with a hand shake.

The Law of the Soil jurisdiction is custom and community expectations - where we love and assist our neighbours and actively engage in building strong communities.

Law is unwritten, and in fact writing doesn't really exist here, but it is the highest jurisdiction of Law and of law.

Land

International Land Law covers all the land (even that under the ocean), which is why it includes the Law of Nations. Law of the Soil covers the top 6 inches of topsoil in each country, and is the common law of Living Men & Women. Land and Soil is about Unincorporated business and trade, good faith agreements and treaties between honourable men and women, and accountable Governments.

Lawful persons operate on the land and soil, and their names are written in English – John Adam Doe; John Adam; John Doe; Doe, John-Adam or by: John Adam of the family Doe

Water

Water (or Sea) jurisdiction is divided into Maritime Law (Commercial Contracts) and Admiralty Law (Military).

“The realm of the sea is inhabited by Legal Fiction Persons, dead wraiths representing offices, incorporated businesses, and THINGS which may be little more than a label or description or title or thought-form --- or even a number on a dog tag.”

“Alarm Given – Trespass with the General Jurisdictions”, Anna Von Reitz

Military titles such as Mr, Mrs, Miss, Ms, Dr, etc are all used to denote that legal fiction persons exist in the world of the dead. Names are written in Proper Case, Mr John Doe, Mr John A. Doe, Ms Mary Jane Doe.

Air

“Ecclesiastical Law deals with the administration of the Church as an institution with respect to the rest of the world and especially those matters that the Church is responsible for as a result of its own activities such as the creation of Monarchies, and standards of time, weights, and measures, postal service, intellectual property management and ownership issues related to the establishment of names, genealogies, and other vital records, copyrights, trademarks, patents, and charters of incorporated entities as well as the definition and discipline of corporations themselves.”

“Alarm Given – Trespass with the General Jurisdictions”, Anna Von Reitz

Statutory Trusts, Co-Operatives, Foundations, LLC’s, (Limited Liability Company) Corporations (Big Pharma, Big Ag, Police, Insurance), Municipalities (towns or districts)

(Incorporated Entities aka) Strawman Names designated to Air Jurisdiction are written in Upper Case – JOHN ADAM DOE, JOHN A. DOE, JOHN DOE
